

Transceive Modules

Speck offers a wide variety of TR modules operating in HF, VHF and UHF frequency range. The TR modules contains various sub modules like SSPA, high speed TR Switches, low noise Receive chain, Timing control unit, Digital phase shifters and attenuator. The module is unconditionally stable and is designed to be installed in mobile and fixed ground stations in severe environmental conditions

Freq. Range (MHz)	Power O/P (W)	Gain (dB)	Class OF Operation
2.5	5000	70	AB
49	1000	60	AB
53	100	50	AB
352.5	350	55	AB
400	100	45	AB
400	40	42	AB
1200	350	340	C
1300	1000	44	C
